SafeSource

SafeSource VERIFIED

You already source carefully. Now patients can see it.

SafeSource independently verifies that your practice purchases clinical supplies through authorized dental distributors, and gives patients a simple way to recognize it.

01 · WHAT IT IS

Independent verification of how you source.

SafeSource reviews where your clinical supplies come from: authorized dental distributors, not unverified sellers.

Verified practices appear in our public directory and receive the SafeSource Verified seal for their website and office.

SafeSource verifies purchasing channels only. It does not evaluate clinical care.

02 · WHY IT HELPS

Make good sourcing visible.

- Give patients an independent trust signal
- Appear in the SafeSource directory when patients search by ZIP code
- Display the SafeSource Verified seal on your website and in your office
- Each verified location receives its own listing and seal
- Your status stays current all year

03 · HOW IT WORKS

Verified, then kept current.

1. **Enroll and connect** your supply credit card through Plaid.
2. **We review** 120 days of purchases.
3. **Sign your Sourcing Pledge** online.
4. **Once both are complete,** your listing and seal go live.

THEN, ALL YEAR

- Purchases reviewed twice a month
- Pledge reaffirmed at six months and annual renewal
- Listing and seal always current

Read-only. We review merchant, date and amount only.

ANNUAL VERIFICATION MEMBERSHIP

Make your sourcing commitment visible.

SafeSource provides ongoing independent sourcing verification, a public directory listing, and the SafeSource Verified seal for participating practices.

See current membership options, pricing and enrollment details online.

Verification status is determined by sourcing review, not by payment. Fees cover monitoring and administration. They do not influence outcomes.

SafeSource Dental, LLC

safesourcedental.com · hello@safesourcedental.com

Verified isn't one and done.
It stays current all year.

Here's what your first year as a SafeSource Verified practice looks like.

1 — 2 — ✓ — 6 — 12

DAY ONE
Enroll and connect
Choose your membership and connect your supply card.

SAME VISIT
Review and Pledge
120 days reviewed, and you sign your Sourcing Pledge.

VERIFIED
You're listed
With both complete, your listing and seal go live.

MONTH SIX
Pledge reaffirmed
Reaffirm your commitment to authorized sourcing.

ANNUAL RENEWAL
Renew and reaffirm
Membership renews and you reaffirm your Pledge.

All year long: new purchases on your connected card are reviewed twice a month, and your listing and seal update automatically with your status.

PUBLIC

What patients see

- Your Verified listing in the SafeSource directory
- Your SafeSource Verified seal, showing current status
- Your signed Pledge of Record

PRIVATE

What stays between us

- Card data: merchant, date and amount only, never patient information
- Any check-in: a private note and 30 days to resolve, while you stay listed
- Nothing negative is ever shown publicly

Common questions

Do I have to change how I buy?
Not if you already buy through authorized distributors. Verification documents what you already do.

What about office supplies?
Non-dental purchases are ignored. Your Pledge covers clinical dental supplies.

How long does enrollment take?
It's online and can be done in one sitting. Your office manager can handle the card connection.

Is SafeSource tied to a distributor?
No. Any authorized distributor counts, and verification is based on your own purchasing data.

Which cards can I connect?
Credit cards, up to 5 per location, or one shared card across locations.

What if I have several locations?
Each location is verified and listed on its own. See safesourcedental.com for membership options.
